Little Simz

You wanna get swept in my BM, yes?
Brunch in Soho with Michelin-star chefs
Step inna di place smelling like success
Can't take a break from making dumb cheques
I'ma spend my Ms
Pass through the ends
Tattoo on their chest saying S I M Z
I know you wanna live your dreams, baby
Girl from the hood turned into a queen, baby

And we blessed, no stress to impress
In my armour, Margiela, the gold vest
London to Jamaica, I roll with my boo nem
When you see the Rasta you haffi salute dem
We ain't here for all that hateful stuff
It's funny how they always wanna hate to love
It's you I think of on my day-to-day
It's only you that got me, think it's safe to say, huh

Don't you keep me waiting for no other
Oh the lessons that I learn when I'm with you
You don't need to call another lover
I'm only about you
Only about you

You know I need you here in my life
Have you by my side
I could never give this up even if I tried
I'm reserved for you, they can't have my time
I see heaven when I look at you in the eye
Huh, it's a blessing we alive
I'ma always honour what we be on when we decide
Being in your arms is the freest I've ever felt
I is him
And he is I
Gi yuh love
I gi yuh love
It's adrenalin, are you feeling the rush?
When you ain't here, babe, I be needing your touch
As if your voice it wasn't healing enough
Sometimes you gotta let it go, baby
Understand when your house ain't a home, baby
Through the rain we built up the courage
So now the harder they come, we rising above it
You know

Don't you keep me waiting for no other
Oh the lessons that I learn when I'm with you
You don't need to call another lover
I'm only about you, only about you

Only love in my heart
My only lover, all about you
Only love in my heart
My only lover, all about you
Only love in my heart
My only lover, all about you

Only love in my heart
My only lover, all about you

Look, however you need me, I'm down for the cause
If you say we're going to war, we're going to war
'Cause even when I fail to see myself, babe, you see me
Genius mind something you can teach me
I'll tell you my truth
We ain't gotta move
Just enjoy the view
On the roof
Call the owner tell them we dining for two
If it's down to me, it'll be up to you
I'm the proof, I'm the one to choose, not the one to lose, go

Only lover
All about you
Only lover
All about you
Only love in my heart
My only lover, all about you
Only love in my heart
My only lover, all about you
Only love in my heart
My only lover, all about you
