

# Our Conversations

Little Simz

Conversations with Mother Earth  
Father he left with no warning I'm so disturbed  
Shit that you're feeding me man I'm sure that I've stomached worse  
Trying to open my eyes knowing my vision's blurred  
Everything so absurd, know I'm an ancient flirt  
So I know the feeling when you seen but you never heard  
It's crazy ain't it, looking to the heavens that can you save me, maybe  
Am I a little too ambitious, but my origin is not as planned  
The apocalypse will soon commence  
How do you feel when your soul's abandoned  
My appearance is turning morbid  
No secrets inside the stories  
The apocalypse will soon commence  
What would you do is a forfeit  
Share my mind thoughts are distorted  
I'm in too deep  
Though it's not too dark to cut the scenery  
Trees grow into the sky look at the leaves beneath  
Yellow and orange are the colors that will speak to me  
Kinesthesia ain't deceiving me  
Mind right flow tight and my heart is where it needs to be  
As long as the people believe in me  
Look into my eyes shit man I can tell that you reading me  
As long as the people believe in me  
I don't mind

If I wait for you, if I wait for you  
Don't say it to me  
Don't waste all your time on me, your time, your time  
I'll be patient, said I'll be patient  
I'm patient with you so please can you bear with me  
Can you bear with me 'cause I made the life I chose  
I can't be waiting  
I'll be waiting  
I said I'll be waiting  
So can you bear with me?  
'Cause we made the life we chose

Conversations with space  
And it's station for noon until it's late  
No one else can relate to all the bass  
Chilling out with the gang lad  
Smurs is probably on the keys  
Till he's probably rolling weed  
Joshua's probably choosing me  
[?] this is what we chose to do  
And this is who we chose to be  
Also damn experimental know the signs of flurics me  
Walking on improving me  
Know I'm not the perfect being  
Boy see I'm just being honest  
Don't waste time pursuing me  
Shit I got a crew with me  
Know just what you to be  
We're just young and living life  
Like there's no tomorrow  
We're just young and living life

Like there's no tomorrow  
Once it's mine, it's mine  
I take it, keep it, shit is never borrowed  
I be on the [?] on the way  
You should've never followed my apologies  
And promise me eulogy  
Whole is mine arts  
Prolly gates said he far from here  
My life has ended, gimme one thing I should start to fear  
I said don't be weak, don't be a slave to the world that feet  
Rise up on your feet, there's a whole world that is yours for keeps  
He says you have no idea do you, no idea do you?  
When you see so many people and know no one's here for you  
Don't you question me, you don't know what I've been through  
What I've gained is nothing compared to what I did

If I wait for you, if I wait for you  
Don't say it to me  
Don't waste all your time on me, your time, your time  
I'll be patient, said I'll be patient  
I'm patient with you so please can you bear with me  
Can you bear with me 'cause I made the life I chose  
I can't be waiting  
I'll be waiting  
I said I'll be waiting  
So can you bear with me?  
'Cause we made the life we chose
