

## Torch

Little Simz

I'm gonna try to beat the force  
I wanna try to feed the lore  
You wanna be with me, of course  
Show you likkle piece, wanna see some more?  
See some more, see some more  
See some more, see some more  
Soul gotta rise when I leave this corpse  
Show you likkle piece, wanna see some more?

Don't be afraid of the bounce  
See, when your tings level, gotta change the amount  
How can I walk in doubt?  
Never been a beg, never been a loudmouth  
Pen can go for days  
I'm obsessed with it, can't change my ways  
So blessed with it, what can I say?  
Top form, stayin' in shape

I'm gonna try to beat the force  
I wanna try to feed the lore  
You wanna be with me, of course  
Show you likkle piece, wanna see some more?  
See some more, see some more  
See some more, see some more  
Soul gotta rise when I leave this corpse  
Show you likkle piece, wanna see some more?

I'm gonna run it up, don't you know your fun is up?  
James knew back when I was comin' up  
Didn't wanna then, now I bet they lovin' us  
No more [?], the bar is raised  
If you know me, know I can bar for days  
Nothin' left to prove 'cause I done enough, done enough  
Lights out, still gonna keep the torch  
Show you likkle piece, wanna see some more?

I'm gonna try to beat the force  
I wanna try to feed the lore  
You wanna be with me, of course  
Show you likkle piece, wanna see some more?  
See some more, see some more  
See some more, see some more  
Soul gotta rise when I leave this corpse  
Show you likkle piece, wanna see some more?

Way, way, way back when, back when  
Show you likkle piece, wanna see some more?  
See some more, see some more  
They ain't gonna wanna see shit from me now  
Show you likkle piece, wanna see some more?

I'm gonna try to beat the force  
I wanna try to feed the lore  
You wanna be with me, of course  
Show you likkle piece, wanna see some more?  
See some more, see some more  
See some more, see some more

Soul gotta rise when I leave this corpse  
Show you likkle piece, wanna see some more?

See some-, see some-  
I never mind if people change  
I wanna try and heal my pain  
How do you buy what can't be sold?  
How can you lie to me in my face?  
In my face, in my face, in my face, in my face  
Lights out, still gonna keep the torch  
Show you likkle piece, wanna see some more?
