Little Simz

Life sucks and I never tried suicide  
Mind's fucked even more than I realise  
Time's up, keep it moving when she arrives  
If you ever heard what I heard in my mind  
Never try, you would cry, that's a lie, you would die  
I don't wanna ever come down from a high  
I'm in the best seat, from time, been a next breed  
If you comin', come at me directly  
Don't need no one to defend me  
Soul's in a place even I can't get to, don't fuck with the deadly  
Moon waves and open seas, quick coasting overseas  
Fuck those who don't believe  
They will never wanna admit I'm the best here  
From the mere fact that I've got ovaries  
It's a woman's world, so to speak  
Pussy, you sour  
Never givin' credit where it's due 'cause you don't like pussy in power  
Venom  
Venom

My, my, if you've ever heard what I've heard in the night  
What a fright, must've been a parasite in my past life  
I don't wanna ever come down from a high  
My soul ascended to the sky, it's just you and I  
God but I'm feelin' too alive  
Tryna get me out of spite  
Someone's gotta pay, I ain't talkin' big amounts  
Some kind of physical pain  
Some kind of traumatic shit  
Niggas wanna see dead bodies  
Probably not, they ain't rollin'  
With no automatic clips  
Moving scatty, all erratic and shit  
Niggas pussy lickin', batty and shit  
Oh, you mad? Then come at me, you prick  
Make a move, better pattern it quick  
I assume you'll be comin' for blood  
That makes two of us, that makes two of us

Venom  
Venom, venom

Night time to daylight we roll trees  
Saved lives, invade minds and go deep  
Oh, he wouldn't have guessed I'm so chill  
Part of the day in the life you won't see  
Part of the day in the life you can't be here for  
It's the day in the life of OGs  
Dealin' with inner demons that won't leave  
Not a word, you will listen when my soul speaks  
Down I go, so follow me, follow me, follow me  
Actually, don't follow me, nobody bother me  
I'm a mess, honestly, fuck all of your policies  
They wanna kick me down and demolish me  
Use me and fuckin' abolish me

I don't wanna hear no apologies  
Or am I in my own head?  
Can't tell anymore, psychotic to the death  
When I dig deep, I can never find nothin' left  
It's a mystery  
Rage, nothin' but rage  
Can't figure out if I'm goin' insane  
Ain't no doubt we'll be showing no mercy  
So think twice if you wanna get blazed  
Nothin' ain't nice 'round here, no games  
I don't wanna dark nobody in a flash  
True, it's a stick-up, hands in the air  
Put the money in the bag, all cash, all cash
