

First Time For Everything

Little Texas

I don't stay out all night
I don't close down the bars
And I don't make a fool of myself
Well, I don't drink too much
And I don't get too loud
And I don't ever raise too much hell

But there's a first time for everything
Since you said goodbye
There's not much of anything
That I haven't tried
To somehow get over you
There's no tellin' what I might do
'cause if I've learned anything
There's a first time for everything

I don't call up old flames
'cause I don't have a blackbook
I don't spend all my time in the past
I don't wake up with strangers
'cause I don't sleep around
No I don't believe in love that won't last

But there's a first time for everything
Since you said goodbye
There's not much of anything
That I haven't tried
To somehow get over you
There's no tellin' what I might do
'cause if I've learned anything
There's a first time for everything

Yeah yeah

When I somehow get over you
There's no tellin' what I might do
'cause if I've learned anything
There's a first time for everything

Yeah yeah
'cause if I've learned anything
There's a first time for everything
Yeah
Yeah yeah yeah
