

Everybody Needs Somebody

Little Walter

Ev'rybody got somebody
You know, I want somebody, too
Ev'rybody got somebody
You know, I want somebody, too
You better be careful, baby
'Cause I've got my eyes on you

Ev'rybody needs somebody
And I need somebody, too
Ev'rybody got somebody
You know, I need somebody, too
I'm gonna make up wit' you baby
If it's the very last thing I do

She's little an she's low
She's built up from the ground
She's got a way to love you
Make my love come tumblin' down

Ev'body got somebody
And I found somebody, too
I won't have to worry no mo'
I don't care what they do.
