

Get Back Together

Liv Dawson

Ain't lost my commitment to my feelings for you
I've been through some dark nights facing the truth
Opening up ain't easy while you're making a move
Never easy

So what do you say?
I'd hate to leave you feeling this way
I think that we should get back together
I'll love you always now and forever (ever, ever)

So maybe
I think that we should get back together
What we need to do
Wanna be with you

I think that we should get back together
What we need to do
Wanna be with you

Get back together
Get back together
Get back together
Get back together (don't you know that I'm still in love with you?)

I miss the way you hold me in the dead of night
I've got nothing left I won't pick a fight
So bring it all to me and we can try make it right
Oh boy, won't you try?

So what do you say?
I'd hate to leave you feeling this way
I think that we should get back together
I'll love you always now and forever (ever, ever)

So maybe
I think that we should get back together
What we need to do
Wanna be with you

I think that we should get back together
What we need to do
Wanna be with you

Get back together
Get back together
Get back together
Get back together
