

## Last Time

Liv Dawson

Goodbye is such a lonely word  
So I won't say it, if you don't say it  
When you're my whole universe  
You know I can't take this  
The thought of having to give you up  
What if this is the last time  
What if this is it  
What if tomorrow on theres only loneliness  
Show me how you would hold me  
Show me how you would kiss  
If we're right now and there's nothing after this  
What if it's the last time  
Suddenly we could fall apart  
And I won't break it, if you don't break it  
The only promises are in our hearts  
So I won't fake it if its not love then its not enough  
What if this is the last time  
What if this is it  
What if tomorrow on theres only loneliness  
Show me how you would hold me  
Show me how you would kiss  
If we're right now and there's nothing after this  
What if there was nothing left to forget about  
Would you care? Or would you be a let down  
In everything up until now  
What if this is the last time  
What if this is it  
What if tomorrow on theres only loneliness  
Show me how you would hold me  
Show me how you would kiss  
If we're right now and there's nothing after this
