

# Gravity

Liv Kristine

I'm giving in  
To this very moment  
I just wanna be  
Floating in the deep

I know my heart wants to beat with your frequency  
I know my voice wants to sing all the words you speak  
I touch you in the deep  
We're playing with gravity  
Catch me in the flow  
Can you hold me forever?

We're flying with gravity  
Let me fly through your space  
(Let me fly...)

I see cirrus clouds  
Delicately paper thin  
I just wanna fly  
High as a kite

I know my heart wants to beat with your frequency  
I know my voice wants to sing all the words you speak  
I touch you in the deep  
We're playing with gravity  
Catch me in the flow  
Can you hold me forever?

We're flying with gravity  
Let me fly through your space  
(Silent stars...)  
(Haloing...)

I know my heart wants to beat with your frequency  
I know my voice wants to sing all the words you speak  
I know it's somewhere hidden in the deepest corner of my empty heart

I just want to fly through your space  
I just want to feel your embrace  
I know it's somewhere hidden in the deepest corner of my empty soul

I touch you in the deep...  
We're playing with gravity...  
Catch me in the flow  
And hold me forever  
We're flying with gravity  
You catch me in the deep  
We're playing with gravity
