

My Juliet

Live My Last

Push me closer to the edge
Keep me standing on the ledge
Every risk I fall for you
Empty bed and sheets await
Every time you go away
I'm feeling empty, plain and simple, will you stay?
(My Juliet!)

Cause the desk is a mess
And the walls are undressed
Leaving echoes of anger
And words we confessed
This glass is tall I'll drink it deep
With every secret we both keep

Tie an anchor 'round my waist
Throw me to the crashing waves
Send me to an early grave I beg of you
Pull the trigger now in haste
Kiss me till I suffocate
Be my Juliet as long as I'm with you

We drink the poison no avoiding all the feelings in-between
You're the drug, I'm the user, I'm the fiend
And we say "We'll be friends" and "I'll call you again"
But I'll write you a letter that I'll never send
Please don't say this is the end!
(If it's the end!)

Tie an anchor 'round my waist
Throw me to the crashing waves
Send me to an early grave I beg of you
Pull the trigger now in haste
Kiss me till I suffocate
Be my Juliet as long as I'm with you

Your lips, your kiss
You leave me breathless
This love, always
Will be the death of me
The death of me

Tie an anchor 'round my waist
Throw me to the crashing waves
Send me to an early grave I beg of you
Pull the trigger now in haste
Kiss me till I suffocate
Be my Juliet as long as I'm with you

Tie an anchor 'round my waist
Throw me to the crashing waves
Send me to an early grave I beg of you
Pull the trigger now in haste
Kiss me till I suffocate
Be my Juliet as long as I'm with you
