

# Twisted

## Live My Last

Put a filter on my mouth  
I've got a thousand things to say  
But when it falls upon deaf ears  
I guess it never matters anyways  
With letters wrote from a broken heart  
Guard is down from the very start with you

But everyone knows  
In just a moment or two  
You can hit that switch  
And keep me twisted on you

Oh, you do  
You keep me twisted on you  
Oh, you do  
Like you've got something to prove  
And I don't ever wanna breathe again  
I don't ever wanna see the end, no  
You know it's true  
You keep me twisted on you

Put a filter on my heart  
Every word from you, it weighs  
From the bottom of an empty glass  
I promise you this time I swear I've changed  
And tattoos from the day we met  
Words in ink all across your chest  
In vain

But everyone knows  
In just a moment or two  
You can hit that switch  
And keep me twisted on you

Oh, you do  
You keep me twisted on you  
Oh, you do  
Like you've got something to prove  
And I don't ever wanna breathe again  
I don't ever wanna see the end, no  
You know it's true  
You keep me twisted on you

She says, she should  
Lose me, I'm no good  
For keeping around  
One kiss, one chance  
One song, one dance  
Just keep me around  
Keep me around

You keep me, you keep me, you keep me

Oh, you do  
You keep me twisted on you  
Oh, you do  
Like you've got something to prove

And I don't ever wanna breathe again  
I don't ever wanna see the end, no  
You know it's true  
You keep me twisted on you

Yeah, we both know  
You keep me twisted on you  
Yeah, we both know  
You keep me twisted on you
