

Under Me

Live My Last

Play, I know that you played me in vain
I still want to hold you

My, oh my, I'm such a sucker for the
Fires you light, burn my fingers
Get me high, I need another way to
Pass my time when you linger

Do you like it, being under me?
Do you like breathing hard when you take me in?
Hope you know I gave you everything
But I'm just a toast to your weekend
You're just another favorite sin of my own

One more time, we found another way
To cross that line, our misleadings
Keep me sick, you've got the medicine to
Make this quit, 'cause I'm easy

Do you like it, being under me?
Do you like breathing hard when you take me in?
Hope you know I gave you everything
But I'm just a toast to your weekend
You're just another favorite sin of my own

So, how do you not know?
(I've got you under my skin like a needle to a junkie, baby)
So, how do you not see me standing here? (I've got you under my
skin)
(I've got you under my skin like a needle to a junkie, baby)
How do you not know?
So, how do you not see me standing here? (I've got you under my
skin)
'Cause' I'm standing here
(Standing here)

Do you like it, being under me? (Standing here)
Do you like breathing hard when you take me in? (Standing here)
Hope you know I gave you everything (Standing here)
But I'm just a toast to your weekend
You're just another favorite sin of my own

I've got you under my skin like a needle to a junkie, baby
I've got you under my skin
I've got you under my skin like a needle to a junkie, baby
I've got you under my skin
