

Let the world be the world  
let the dream unfurl  
let it run its own game  
let it dance with itself  
I didn't put it here  
gonna let it ride  
gotta master, crazy on the other side  
wakin' me up

I ain't got no brains  
I can't trust my eyes  
what good's a beautiful day  
if you can't see the light?  
I can't find my fate  
well then I must be blind  
with the force and fire of love  
that's takin over my mind  
wakin' me up  
obligin' me to the sun  
obligin' me to the sun

Sun sun merciful one  
sun sun  
sun sun won't you lay down your light on us  
sun sun

Let the world be the world  
let the girl be the girl  
let her beauty move ya  
let her dance be your guide  
let your hunger grow  
but don't eat the fruit "too low"  
keep climbin' for the kisses on the other side  
wakin' me up obligin' me to the sun  
obligin' me to the sun

Sun sun merciful one  
sun sun  
sun sun won't you lay down your light on us  
sun sun

All we need is to come into the sun  
we've been out in the dark for so long  
all I need, all we need, all I need, all we  
need! yeah!
