

All Night Long

LiveonRelease

I can give you love
Baby don't you need me
I can give it to you all night long

I can give you love
Baby don't you need me
I can give it to you all night long

Baby all night long
I can give it to you all night long
Baby all night long
I can give it to you all night LONG

I can give you love
Baby don't you need me
I can give it to you all night long

I can give you everything
Anything you're wishing
I can make it so nothing is wrong

I can give you love
Baby don't you need me
I can give it to you all night long

I love the way you talk to me
In between the covers
Telling me how much I turn you on

And I love your car
And you're stereo too
And I love the way you walk
And the way you talk
You know I need you baby.....
All night long
