

Found lost, deep inside my own misconception  
Who's telling you to take a look in my direction  
Too much anger I can't control my rage  
Lock me up why dont you  
I'm not in your fucking cage  
Teething, grinding my teeth again  
I'm teething oh  
ya

Cursed, you push me round until I  
Burst, but you dont know what I can  
Take, no you you're fucking fake  
Cursed, you push me round until I  
Burst, but you dont know what I can  
Take, no you you're fucking fake

Don't talk to me  
You don't understand my pain  
If you understood me then  
you'd never be the same  
Your four letter words make me sob with dry tears  
So shut your mouth and I'll forget about my fears  
Teething, grinding my teeth again  
I'm teething oh  
ya

Until you make sense of what you say  
I'll climb the fence to get away  
I have a mind you cannot tame  
I'm not a slave to your cruel game

Teething, grinding my teeth again  
I'm teething oh
