

Brains For Lubrication

Lividity

My God help me, rape the dead, your head severed, my cock
to your face, cerebral cortex, tight as a cunt, I'll
f**k! Stick it inside the hole in your head, cum stained
brains now splatter my chest, guts and semen smeared on
your tits, I'm done! f**king your brains into oblivion,
planting my seed between your eyes! Skull caves in
decaying mess, rancid body, full of shit, defecating
rotten crusty brains! Defecating rotten crusty brains! I
f**k your f**king skull! Rancid piece of meat, stinking
from the burning sun, fetish for the sick, won't take
long for me to cum! Defecating rotten crusty brains
