Lividity

Dead I lay before you as you feast upon my flesh Ripping apart my torso till you see there's nothing left Moving throug your stomach and intestines to your womb Growing stronger everday to gain control of you Growing strong Feeding on your ovaries Taking form Not the man I used to be Stronger Deformed Crippled Insane Organs enter from inside, I'll tear apart you womb Raped before and after death then bury you in a grave of Conception through ingestion Now reborn From sick and diseased Ravaged cunt Dying as you cum Conception through ingestion
