

Second Narrows

Living With Lions

Well I can't figure out
Where your heads been
And your point of view
It didn't make much sense

Did it ever have the chance at being something more
Always seem to wonder what I'm waiting for

I found a way around the town that I grew up in with you
I'd wear a hole in both my shoes so I could just get back to

Second narrows
Take me home
Second narrows
Yeah

Stay away from me and I'll go there
Is it your fault is it mine?
I don't care
You say f*ck me
I say f*ck you more
You always seemed to like me more
When you were bored

I found a way around the town that I grew up in with you

Wear a hole in both my shoes so I could just get back to

Second narrows
Take me home
Second narrows
Take me home

You think I wanted more than you could give
But it just came down to this
Why would I
Why would I be friends with a liar

I found a way around the town that I grew up in with you
Wear a hole in both my shoes so I could just get back to it

You think I wanted more than you could give
It just came down to this
It just came down to this

You think I wanted more than you could give
It just came down to this
Why would I be friends with a liar
