

# Tidal Wave

## Living With Lions

Rushing like a tidal wave  
And I can feel everything  
The decisions that we make  
Now we bend and break

I feel like I'm dreaming  
I'm stuck to the ceiling  
I can't seem to get myself away

Close your eyes and think  
About everything that you did to me  
Now we're one hundred miles apart  
Crawling on hands and knees  
I did everything to be one hundred miles apart

Picture this and persecute  
What you thought I did to you  
Disagree to disagree  
Your words always so cheap  
Now I feel perfect on my own  
Did I loose out on you  
Feels like I just won

You're restless I get it  
Walking through all the bullshit  
I had to listen to it everyday

Close your eyes and think  
About everything that you did to me

Now we're one hundred miles apart  
Crawling on hands and knees  
I did everything to be one hundred miles apart

This isn't me  
This is a sad song  
This is where I was all along  
You're just so angry  
When are you going to realize  
This isn't me  
This is a warning  
There's no use in mourning  
Everything we had was born to die

Close your eyes and think  
About everything that you did to me  
Now we're one hundred miles apart  
Crawling on hands and knees  
I did everything to be one hundred miles apart

Think about everything that you did to me  
We were always one hundred miles apart  
We grew apart everyday  
I watched you bend and sway  
We were always one hundred miles apart
