

Livvi Franc - Automatik

Livvi Franc

Breakin up,
tired of this feelin' that my hands are cuffed
When I'm around you
Over love,
Let's take it to the road because I've had enough.
I wish I never met you.

I'd stop, you'd stop
Mission impossible. Mission impossible.
Is what we got

I can turn you loose,
Baby what's the use?
Oh, Oh
I come back to you like automatik.
I could run so far,
But the stars are still.
Oh, Oh
I come back to you like automatik.
Automatik, automatik, automatik.
Automatik, automatik. (2x)
I come back to you like automatik.

I'm losing hope,
You're bound around my heart just like a body rope
too tight to get through
Under my skin,
I'm sick of fighting battles I can never win
So let's play again, play again.

I'd stop, you'd stop
Mission impossible. Mission impossible.
Is what we got

I can turn you loose,
Baby what's the use?
Oh, Oh
I come back to you like automatik.
I could run so far,
But the stars are still.
Oh, Oh
I come back to you like automatik.
Automatik, automatik, automatik
Automatik, automatik (2x)
I come back to you like automatik

Hold on me like, like a magnet.
I come back like aut-o-mat-ik. (2x)

I can turn you loose,
Baby what's the use?
Oh, Oh
I come back to you like automatik.
I could run so far,
But the stars are still.
Oh, Oh
I come back to you like automatik.

Automatik, automatik, automatik.
Automatik, automatik. (2x)
I come back to you like automatic.
