

# Big Machine

Liz Lawrence

One week in the sun  
Such good it can do  
One week in the sun  
And I'm feeling brand new  
Wanna live in the wild  
Wanna live in the wild  
But I'm scared of the men  
Who protect the land  
They're preparing to die  
Where the statues stand  
Wanna live in the wild  
I wanna live in the wild

Can't keep dragging this big machine  
Can't keep dragging this big machine

Hey, hey  
I swear there's something happening in  
My brain  
But I can't put my finger on it  
Outside  
Well someone put the windows in in my house  
We're totting up the body count

I can barely breathe  
Oh I can barely stand  
I wanna take my chances living off the land  
I wanna live in the wild  
I wanna live in the wild

I am thoroughly beaten  
I might as well be eaten  
Put a stick in the wheel  
Stop this cycle repeating  
Repeating repeating repeating repeating repeating repeating

Can't keep dragging this big machine  
Can't keep dragging this big machine  
Can't keep dragging this big machine  
Can't keep dragging this big machine

Hey, hey  
I swear there's something happening in  
My brain  
But I can't put my finger on it  
Outside  
Well someone put the windows in in my house

There's no more time, no more time  
There's no more time, no more time  
There's no more time, no more time  
There's no more time, no more time

Hey, hey  
I swear there's something happening in  
My brain  
But I can't put my finger on it

Outside

Well someone put the windows in in my house

We're totting up the body count

Give myself back to mother nature

Daddy England is doing my head in

Give myself back to mother nature

Daddy England is doing my head in (I wanna live in the wild)

Give myself back to mother nature

Daddy England is doing my head in

Give myself back to mother nature

Daddy England is doing my head in (I wanna live in the wild)
