

Wake up early
Turning my phone in my hand like love
All of the answers
Fit in the palm of my hand like a glove

The more I know about it, the less I know about it
The more I wanna know less about it
The more I know about it, the less I know about it
The more I wanna know less about it

Wake up early
Rolling your phone in your hand like love
All of the answers
Fit in the palm of your hand like a glove

More I know about it, the less I know about it
The more I wanna know less about it
More I know about it, the less I know about it
The more I wanna know less about it

Stop talking, I can't think straight
We need to take a minute, we need to take a minute out
Stop talking, I can't think straight
We need to take a minute, we need to take a minute out
Stop talking, I can't think straight
We need to take a minute, we need to take a minute out
Stop talking, I can't think straight
We need to take a minute, we need to take a minute out

More I know about it, the less I know about it
The more I wanna know less about it
(We need to take a minute out)
More I know about it, the less I know about it
The more I wanna know less about it (We need to take a minute)
(We need to take a minute out)

The more I know about
And the more I think about
And the more I know about, the less I know and think about
And the more I know about
And the more I think about
And the more I know about, the less I know and think about
