

# None Of My Friends

Liz Lawrence

I talk to you twice a year  
On your birthdays and Christmases  
And we connect over late stage capitalist memes

None of my friends are ok  
None of my friends are ok

I call you up just to cancel our plans  
You're not put out you were hoping to cancel too

None of my friends are ok  
None of my friends are ok

I'm watching you fade  
You're watching me fade  
I'm watching you fade

We've passed the point of no return  
Too late to save the environment  
Quit single use plastic  
My low key cocaine habit

None of my friends are ok  
None of my friends are ok

I'm watching you fade  
You're watching me fade  
I'm watching you fade

None of my friends are ok  
None of my friends are ok  
None of my friends are ok  
None of my friends are ok
