

Shine bright  
Your light  
They'll tell you that you're mad  
But you're not  
You're true  
And you're the holiest of things

You got to work till the body works for you  
Your innocence is your USP  
You got to take all that they give to you  
To get a break when you're 17

Your guts  
You rise  
You moon  
They'll tell you that you can't  
But you can  
Elevate  
Until you're on a higher plane

You got to work till the body works for you  
Your innocence is your USP  
You got to take all that they give to you  
To get a break when you're 17

They say you can't  
But you can  
They say you can't  
But you can  
They say you can't  
But you can

You got to work till the body works for you  
Your innocence is your USP  
You got to take all that they give to you  
To get a break when you're 17
