Electricity

LIZ

Oh, yeah yeah
Uh, uh, yeah, yeah

Call me on my cell, don't you keep me waiting
Think of nothing else, anticipating
You and I, being close tonight
And the charge is growing

Party in the hills at my girlfriend's mansion
Just a spot we can fuel the tension
You and I, turn out the lights
Feel the power flowing

Through my touch, into your heart
And down my spine, I can feel the rush about to start
Tell me how to make your heart beat stronger
Tell me how to make the love last longer
Tell me how you make me come alive
With just one kiss and...

Then, you take me by the hand
Suddenly it's burning up inside me
Turn me on, baby plug it in
Electricity running through my skin

Boom, you come into the room
Suddenly I feel the good vibration
Plug it in, baby turn me on
Electricity, hook me up before it's gone

Take me to a club 'cause I'm feeling wired
Gonna need you close to feel my desire
Move with you, you feel it too
Now the meters sliding

We could sip away, disappear together
Anything you wanna do, whatever
Turns you on, can't go on
It's an understanding

Through my touch, into your soul
Beneath my clothes, I can feel it as it takes control
Tell me how to make your heart beat stronger
Tell me how to make the love last longer
Tell me how you make me come alive
With just one kiss and...

Then, you take me by the hand
Suddenly it's burning up inside me
Turn me on, baby plug it in
Electricity running through my skin

Boom, you come into the room
Suddenly I feel the good vibration
Plug it in, baby turn me on
Electricity, hook me up before it's gone

Gimme summa, gimme summa, come make it hot
Do you wanna, do you wanna show what you got?
Feel it in my blood, boy, starting to rise
I can feel it, I can feel it, look in my eyes

Plug it in, plug it in, fire it up
Pedal to the metal, baby, don't ever stop
Feeling the connection and the charge is growing
Higher, higher...

Then, you take me by the hand
Suddenly it's burning up inside me
Turn me on, baby plug it in
Electricity running through my skin

Boom, you come into the room
Suddenly I feel the good vibration
Plug it in, baby turn me on
Electricity, hook me up before it's gone

Then, you take me by the hand
Suddenly it's burning up inside me
Turn me on, baby plug it in
Electricity running through my skin

Boom, you come into the room
Suddenly I feel the good vibration
Plug it in, baby turn me on
Electricity, hook me up before it's gone
