

Every Memory

LIZ

I'm still torn, you to cause
Lingering, I can't let it go
But you would never know
I'm always the same girl
To you as I ever was
No matter how much
You make me feel alone
Painting a smile on
Whenever you come around
So I won't let it show

I don't wanna wait for you
But I can't let us wash away
My heart is still riding through
Lovin' every memory of you
If I could feel you need me
The way you did
Or if I could see it in your eyes
I don't wanna wait for you
But my heart's still
Lovin' every memory of you

When did you quit
Holdin' down for me?
I swear our love was what
You were all about
I'm always the same girl
To you as I ever was
No matter how much
You make me feel alone
Deep down I still feel like there
Might be something left
Tell me, am I on my own?

I don't wanna wait for you
But I can't let us wash away
My heart is still riding through
Lovin' every memory of you
If I could feel you need me
The way you did
Or if I could see it in your eyes
I don't wanna wait for you
But my heart's still
Lovin' every memory of you
