

# Every Memory

LIZ

I'm still torn, you to cause  
Lingering, I can't let it go  
But you would never know  
I'm always the same girl  
To you as I ever was  
No matter how much  
You make me feel alone  
Painting a smile on  
Whenever you come around  
So I won't let it show

I don't wanna wait for you  
But I can't let us wash away  
My heart is still riding through  
Lovin' every memory of you  
If I could feel you need me  
The way you did  
Or if I could see it in your eyes  
I don't wanna wait for you  
But my heart's still  
Lovin' every memory of you

When did you quit  
Holdin' down for me?  
I swear our love was what  
You were all about  
I'm always the same girl  
To you as I ever was  
No matter how much  
You make me feel alone  
Deep down I still feel like there  
Might be something left  
Tell me, am I on my own?

I don't wanna wait for you  
But I can't let us wash away  
My heart is still riding through  
Lovin' every memory of you  
If I could feel you need me  
The way you did  
Or if I could see it in your eyes  
I don't wanna wait for you  
But my heart's still  
Lovin' every memory of you
