

# Forever

LIZ

I thought we had that something special  
Now I don't know where you go  
You still just around the corner  
But, now I can't see your heart  
Its like you locked it up  
And, now it's out of reach  
All I wanna do is touch that sweet and tender beat

I still think you and me, we could be lovers  
(All I wanna do is nothing, all I wanna do is nothing)  
You and me always just miss each other  
(All I wanna do is nothing)

Do you wanna be forever?  
You and me, always together?  
Do you wanna be my lover?  
Do you wanna be?  
Do you want to be forever  
Do you wanna be forever?  
Do you wanna be -  
Do you want to be forever?

Not the type to just forget it  
I got trouble letting go  
Took long enough to find you on these streets  
Don't make me walk alone  
Ran in to your facem on my phone  
Shouldn't have looked you up  
Now I'm sitting here in a funk  
There's something 'bout you, I can't get enough

I still think you and me, we could be lovers  
(All I wanna do is nothing, all I wanna do is nothing)  
You and me always just miss each other  
(All I wanna do is nothing)

Do you wanna be forever?  
You and me always together?  
Do you wanna be my lover?  
Do you wanna be?  
Do you want to be forever  
Do you want to be forever  
Do you want to be forever  
Do you want to be  
Do you want to be forever

You're never far from my brain  
Make me hot, like insane  
Wanna hold your hand in mine, like that time  
When you brushed up on me, with your touch  
Got too close, not enough  
You had a girlfriend that day that we met  
But, we stayed in contact  
Now we're free to connect  
It's time, will you be mine?  
It's time, will you be mine?
