

High School Luv

LIZ

Gotta find that high school love
Gotta find that high school love
I don't wanna waste no time
Gotta find that high school love
I've already made up my mind
Gotta find that high school love
I still wear your jersey number on my wrist
And even went round your house
When I was pissed
'Til this day I won't settle for second best
It's just gotta be perfect, perfect...

Gotta find that high school love
Gotta find that high school love

Together, apart
I'd watch you on the school bus, from afar
I swear one time we flirted
But in my heart
I knew that it wasn't real, real
I used to daydream
And doodle in my notebook our names
I'd hide it underneath my pillow
And when I looked every night
It was perfect, perfect

I don't wanna waste no time
Gotta find that high school love
I've already made up my mind
Gotta find that high school love

But I won't stop believing in what I want
I don't wanna, I don't wanna waste no time
Gotta find that high school love
Can't stop dreamin' 'bout what I want
Cause I, I've already made up my mind
Gotta find that high school love
I still wear your jersey number on my wrist
And even went round your house
When I was pissed
Till this day I won't settle for second best
It's just gotta be perfect, perfect...

Gotta find that high school love
Gotta find that high school love

I know that it's dumb
When all my friends
They try to get me some
But I was happy waiting for you
I really thought that it could be real, real
I still wear your jersey number on my wrist
And even went round your house
When I was pissed
Till this day I won't settle for second best
It's just gotta be perfect, perfect

But I won't stop believing in what I want
I don't wanna, I don't wanna waste no time
Gotta find that high school love
Can't stop dreamin' 'bout what I want
Cause I, I've already made up my mind
Gotta find that high school love
But I won't stop believing in what I want
I don't wanna, I don't wanna waste no time
Gotta find that high school love
Can't stop dreamin' 'bout what I want
Cause I, I've already made up my mind
Gotta find that high school love
