

High Vibrations

LIZ

You give me high vibrations
You give me high vibrations

Gimme your time and I'll set the mood
All we need is you and me and the view
Take me out of the real world
Into your ocean of dreams
Gimme your love, I'm on fire for you

High vibrations
You give me high vibrations
You give me high vibrations
High vibrations
You give me high vibrations
You give me high vibrations

We make beautiful music
Such a wonderful sound
Your love, I don't wanna lose it
I don't wanna come down
Stars will circle around us
Made for you and me
On our way to discover a new galaxy

High vibrations
You give me high vibrations
You give me high vibrations
High vibrations
You give me high vibrations
You give me high vibrations

Stars will circle around us
Made for you and me
On our way to discover a new galaxy

High vibrations
You give me high vibrations
You give me high vibrations
High vibrations
You give me high vibrations
You give me high vibrations

You give me high vibrations
You give me high vibrations
