

# Mood Ring

LIZ

Slip into the grey, get in my own way  
Change my mind a million times a day  
Quicksilver rising feels like destiny  
I'm sorry I'm not always what you need

It's a delicate dance on quicksand  
But we never fall through  
Just one look, yeah, you understand  
Anticipatin' my moves  
(You read me like a mood ring)

My highs are so high like lavender skies  
Hazy and light  
And when I go low, wanna dive in a hole  
Into the steel blue  
You read me like a mood ring  
You read me like a mood ring

Every night that I have with you  
Is just a darker shade of blue  
I feel my cheeks turning red  
Every time I hold your hand  
Feel the way things come full circle  
Hold my breath 'til I'm turnin' purple  
I don't wanna come down again

It's a delicate dance on quicksand  
But we never fall through  
Just one look, yeah, you understand  
Anticipatin' my moves  
(You read me like a mood ring)

My highs are so high like lavender skies  
Hazy and light  
And when I go low, wanna dive in a hole  
Into the steel blue  
You read me like a mood ring  
You read me like a mood ring

Every day you love to love and hate me  
(You read me like a mood ring)  
Fall from heaven  
Crash down safely, baby  
(You read me like a mood ring)

My highs are so high like lavender skies  
Hazy and light  
And when I go low, wanna dive in a hole  
Into the steel blue  
You read me like a mood ring  
You read me like a mood ring
