

# Promise

LIZ

I don't wanna make the same mistakes  
She made before  
Cause, we both know how easy it could be  
To go down that road  
I'm not sayin' I'm not ready, baby  
To be the girl you need

But, I can't end up like all of them  
End up just like the rest  
Better believe it

I don't wanna rush it, no  
And wake up in an empty bed  
If we took our time, went slow  
Promise not to get enough  
Of me and you together  
And, not ever let it fade, no  
On my heart (on my heart), never change (never change)  
I promise you, boy

You don't wanna make the same mistakes  
He made before  
Cause, I ain't lyin'  
When I say that I don't wanna  
Have to see you go  
Don't you worry 'bout the past, babe  
Cause, it's the past for a reason

And I won't let you end up like all of them  
End up just like the rest  
You better believe it

I don't wanna rush it, no  
And wake up in an empty bed  
If we took our time, went slow  
Promise not to get enough  
Of me and you together  
And, not ever let it fade, no  
On my heart (on my heart), never change (never change)  
I promise you, boy

Don't wanna burn it out  
If this is real  
We need to work with what we feel  
My love, so simple  
Forever, more than a night  
Too soon to feel so right  
Should I stay or say goodnight?  
Gotta say what you mean  
If you're gonna promise it to me

I don't wanna rush it, no  
And wake up in an empty bed  
If we took our time, went slow  
Promise not to get enough  
Of me and you together  
And, not ever let it fade, no

On my heart (on my heart), never change (never change)  
I promise you, boy
