

It's been so long
Floating out in the unknown
And everything's wrong
I know that you feel alone

You can't stop halfway, when you're in a dream
You, you can't stop doin' it, doin' it

How will you know if you don't fly out into space with everythi
ng you are?
Even when the night is at its darkest
And the world treats you so heartless
Yeah I'll see you shine 'cause you're a star
Yeah, I see you shine 'cause you're a star

I know it's hard
Not knowing where you are
But you've come this far
Guided by a light in your heart

You can't stop halfway when you're in a dream
You, you can't stop doin' it, doin' it

No, you're not nameless, turn the pages
And you'll start to find out who you are
Just keep on wishin, you can give yourself permission, 'cause t
he words are still unwritten
Maybe you're a star
Yeah, I see you shine 'cause you're a star
