

# Stop Me Cold

LIZ

One look and you stop me cold  
I wanna be the one, I wanna be the one  
Don't spill 'bout them other girls  
No I don't needa know  
No I don't needa know  
I can tell you were watching  
How you looked the other way  
And it made me feel so vulnerable  
Yeah it took one look to stop me cold  
I'll never let you go  
I'll never let you go

I been outta the game for a minute  
Not a damn thing changed  
Trying not to act a fool  
Like it's the first day back at school  
And when I see you  
I freeze up inside  
Forget myself, how to say my name  
Could it be that you feel the same?

Needa slow down  
And get a hold on it  
Just when my heart is racing  
Come back to earth now  
But when they say our names  
It sounds perfect together  
I wanna let it happen  
Say it once, let's go

One look and you stop me cold  
I wanna be the one, I wanna be the one  
Don't spill 'bout them other girls  
No I don't needa know  
No I don't needa know  
I can tell you were watching  
How you looked the other way  
And it made me feel so vulnerable  
Yeah it took one look to stop me cold  
I'll never let you go  
I'll never let you go

So we're kickin it now  
Just by ourselves  
You lookin' back at me  
Exactly how I hoped it be  
Girl, don't act a fool  
Just play it right and keep your cool

I see us locked down, boo'd up  
Talking 'till the sun comes up  
I needa come back down  
Cause it's too sweet too quick  
How can I know it's legit?  
Let it happen  
Say it once, let's go

One look and you stop me cold  
I wanna be the one, I wanna be the one  
Don't spill 'bout them other girls  
No I don't needa know  
No I don't needa know  
I can tell you were watching  
How you looked the other way  
And it made me feel so vulnerable  
Yeah it took one look to stop me cold  
I'll never let you go  
I'll never let you go

Just take a chance on me  
Cause it feels so right  
Do it so tenderly  
Cause it's been a little while  
Since I done this my last  
But you know I'll love you good  
You know I'll love you right  
I swear I'll lay it down  
All through the motherfuckin night  
I been savin' it up for you  
All you gotta do is say it once, let's go

One look and you stop me cold  
I wanna be the one, I wanna be the one  
Don't spill 'bout them other girls  
No I don't needa know  
No I don't needa know  
I can tell you were watching  
How you looked the other way  
And it made me feel so vulnerable  
Yeah it took one look to stop me cold  
I'll never let you go  
I'll never let you go
