

# The Cure

LIZ

Settin' off alarms after midnight  
Skinny dip in someone else's pool  
Pretend that we're livin' the good life  
We got no chill, don't play it cool

Blue and red lights  
Drivin' up the hillside  
Sitting on dynamite  
Yeah, we gotta hold tight  
So high, up there like a satellite  
Think I'm losin' my mind

It's got to be you  
And all of the madness  
And the mess you put me through  
I just can't refuse  
All of the chaos and the trouble we're into  
Hell of a crazy state I'm in  
At least I know it's happenin'  
Of one thing that I'm sure  
I'm lovesick and you're the cure

Wakin' up in some trashy hotel room  
Feels like the liquor got revenge  
Guess we can blame it on the full moon  
Oh damn we done did it again

Blue and red lights  
Drivin' up the hillside  
Sitting on dynamite  
Yeah we gotta hold tight  
So high up there like a satellite  
Think I'm losin' my mind

It's got to be you  
And all of the madness  
And the mess you put me through  
I just can't refuse  
All of the chaos and the trouble we're into  
Hell of a crazy state I'm in  
At least I know it's happenin'  
Of one thing that I'm sure  
I'm lovesick and you're the cure

You're the cure  
You're the cure  
You're the cure  
You're the cure  
You're the cure

It's got to be you  
And all of the madness  
And the mess you put me through  
I just can't refuse  
All of the chaos and the trouble we're into  
Hell of a crazy state I'm in  
At least I know it's happenin'

Of one thing that I'm sure  
I'm lovesick and you're the cure
