

Want U To Hate Me

LIZ

Remember when we used to
Go at it face to face
The rush always turned us on
The chase was our favorite game
Yeah, you were a little bad
And I was a little drunk
We always knew how to have fun
But now it's just not enough

Oh, when did it get so comfortable?
Oh, making me say things I never would

I want you to hate me
Gimme something new
Cause this same routine
Is making me get over you
Do you love me?
Am I gettin through?
Did I have to go this far
To show you what we've turned into?
Oh baby

Come on, give it to me now
I've started, so help me out
Baby, get me back on my toes
Let's make that fire glow
Not trying to sabotage
This relationship of ours
But I'm down to get a little rough
Cause now it's just not enough

Oh, when did it get so comfortable?
Oh, making me say things I never would

I want you to hate me
Gimme something new
Cause this same routine
Is making me get over you
Do you love me?
Am I gettin through?
Did I have to go this far
To show you what we've turned into?
Oh baby
