

This one's for the Y2K
This one's for my peoples
The ones who holding it down before me
For my underdogs
I feel it running all alone
And you will always be over there
A picture can paint a 1000 words
But, I'll tell you a story
One for the books, all through the night
And into the morning
Yeah, I'm right here, I'm right here for you
And I feel it just like you

Lately, I've been thinking
When we say something's missing
Was lost and alone that night 'til I found ya
Don't you ever go too far
Tell me what you're feeling
Cause these dreams are mine to share
Don't give 'em up, I'll always be there for you
And I will never go too far

This one's for the Y2K
This one's for my peoples
A picture can mean a 1000 words
But, I'll tell you a story
One for the books, all through the night
And into the morning
Yeah, I'm right here, I'm right here for you
And I feel it just like you
