

## All The Way Here

Lizz Wright

I got something  
That needs saying  
Coming over me  
I didn't change  
What I believed in  
Oh, you see  
I got your hand, your dedication  
You stayed true  
Then I listened, for direction  
I know who to listen to

I took a cold coffin deep inside  
The voice was sweet and sanctified  
In my bones a revelation  
Your love was mine to fight or to follow  
All the way here

Sat down slid my shoes off  
Like I was there to stay  
Stranding still in a storm changing  
You get swept away

I took a cold coffin deep inside  
The voice was sweet and sanctified  
In my bones a revelation  
That love was mine to fight or to follow  
All the way here

Here I am  
Living the song I've always sung  
Love me the same  
Call my name and I'll still come  
To fight or follow that's an easy one

I took a cold coffin deep inside  
Voice was sweet and sanctified  
From a whisper to loud and clear  
Love was mine to fight or to follow  
All the way here

All the way here
