

## Here And Now

Lizz Wright

Don't leave me behind  
You got inside me  
A place a space that's yours

I'm where you're made  
You got to take me away  
To where you can

Just let it go  
Who needs to know  
What it is and where to go  
All I have to go on  
Is here and now... it's here and now

I want to love  
Free as a dream  
And close the cage  
Then make me sing  
Away to where you can

Just let it go  
Who needs to know  
What it is and where to goes  
All I have to go on

Is here and now...  
It's here and now...  
Here and now...  
Here and now
