

## Lean In

Lizz Wright

Lean in, make it plain to me  
What do you want, what do you need?  
Come on, let's stop playing mouse and cat  
Come on, don't turn back...

Don't you pretend that you can't feel  
A good thing moving you to me  
No need to fear it  
And don't overthink it  
I just want to make you see  
That's it's all right, it's all right baby...

Go slow, take your time  
My arms are open wide  
Follow me inside  
Come on, let's stop playing mouse and cat  
Come on, don't turn back...

Don't you pretend that you can't  
Feel a good thing  
Moving you to me  
No need to fear it  
And don't overthink it  
I just want to make you see  
That it's all right, it's all right... baby

Yes it's all right, gonna be all right  
Lean in, show me where it's at  
Once more just like that  
Hold on, just don't let it slip away  
Stay strong, no matter what I say

Oh baby, you're so fine  
Yeah honey you're right  
Ooh baby you're so right  
It's going to be all right

Lean in, don't turn back  
Lean in, don't turn back  
Lean in, don't turn back
