

## Song For Mia

Lizz Wright

I went down to the water , all night long  
I'm putting my feet in ,all night long

And I went down to the water , all night long  
And I'm putting my dreams in , all night long

And what you think of me ,I can't say  
I'll take these bad dreams and I'll drove along the way

I'm at the shore now , the shadows at my back  
I can feel the waves coming there , heavy and black

But I can't turn away now 'cause I  
They're singin' a song

And I , I'm in harmony  
I'm singing along

And what you did to me I , I can't take no more  
I'll take these bad dreams and I'll lay them at the shore

The end of the ocean I'll never see  
I stare out in the distance and it's looking back at me

And I'll look down to the water all night long  
And I'll put my feet in , all night long

And I'll put my dreams in , all night long  
And I'll put my tears in , all night long  
I went down to the water
