

This Way

Lizz Wright

I've been running
And there's no place left to go
Rounding the world
Here and there
Mean the same

It's my pleasure to know
That where I am is home
And I don't mind moving on this way

I've heard so much about love
But I learned the most from need
Carrying the load
Trying so hard to please

Thinking and believing
Til I could feel what's real
No one has to tell me
Lay my burdens down here

This way (This way)
This way (This way)
Let the world wait at the door
Let the rain come like a song

This way (This way)
This way (This way)
I don't mind moving on this way

I was searching all around me
For a story of the truth
It took me to the end of a lonesome road

That's where I found the courage
To let myself see you
No one and nothing else will do

This way (This way)
This way (This way)
Let the world wait at the door
And let the rain come like a song

This way (This way)
This way (This way)
I don't mind moving on this way
Do you mind moving on this way?
