

## Make Way

Lizzo

Something's got a hold on me  
Drowning I can't barely drink oh  
Smoking I can barely breathe  
Chopping up the royalty (oh)

They said that it's a cold world  
I tell them it's my own world  
And I'm about to pick the whole thing up  
X2

You scare me  
Cause there's something darker hiding in disguise  
Reminds me  
That I'm exposed to be eaten alive

These cycles are liable  
To go in circles, round about  
What's this about  
Same drug different mouth  
Same in different out  
(This is my handle, this is my spout)  
Now that's I'm all steamed up  
Just tip me over and pour me out

Gettin down and po'in up 3X  
This ain't what you really want (repeat)

Pain leaves the body and the spirit wits  
Substitute some whiskey for the Tylenol  
Gotta keep this deal on going  
If you feelin how I feel

So quit telling me you feel me  
Cause can't nobody feel  
And quit telling us we're famous  
Cause we ain't go no deal  
And even if we did man  
Then the industry ain't real  
Like I'm drinking and I'm driving  
But my hand ain't on the wheel  
And I'm pressing on the gas  
Cause I guess nobody will

[Hook]
