

If I Knew Your Name

Lizzy McAlpine

Somebody out there
Tastes like a cool spring day
Somebody out there
Will tell me it's okay
They will be as warm as summer rain
Lift me up and take me from the pain
Somebody out there will love me that way

I wish that you were mine, oh
I wish that you would drive slow
I'd kiss you if I knew your name
I miss a love I don't know
Three wishes for my very own Romeo
I'd kiss you only if I knew your name

If I see blue skies above, I think of you
When I see people in love, I think of you
The thought of you is so divine
You'll bring me flowers when I tell you you can be mine
That's how it'll start

Somebody out there
Likes to sleep in until 2
Somebody out there
Knows me better than I do
They will be as sweet as buttercream
Vivid like a Sunday daydream
Somebody out there
Will love me for me

This love will be something to remember
This love will be something for forever
I'll love you even if we're not together
Baby, kiss me just for good measure

When I see blue skies above, I think of you
When I see people in love, I think of you
The thought of you is so divine
You'd bring me flowers when I tell you you can be mine
And that's how it'll start

If I see blue skies above, I think of you
When I see people in love, I think of you
The thought of you is so divine
You'd bring me flowers when I tell you you can be mine
And that's how it'll start
