

# Ocean Blue

Lizzy McAlpine

I'm speechless  
No words I make have meaning  
Right now they're  
Lost within me deep within me you complete me please don't leave me now

You're beauty  
Inside and out  
Enchants me  
You understand the way I work  
I understand the way that you work too  
We fit like glue

There's not a thing  
I wouldn't do for you  
You make me sing  
You inspire the words of my youth  
We are far apart but they still hold true

It's so easy  
To lose myself in you  
I could hide  
Inside your eyes  
Deep and misty ocean blue  
I was fine until I spent a while  
Let myself drift  
I couldn't see that I was  
Slowly losing independence  
Oh now  
I feel much more free  
I can finally see how  
Time is everything  
Oh love alone is not enough to heal the pain

I find you  
So interesting  
Your brain works  
In ways I've never seen before  
It's so annoying yet so intriguing too  
I need you

There's not a thing  
I wouldn't do for you  
You make me sing  
You inspire the words of my youth  
We are far apart but they still hold true

It's so easy  
To lose myself in you  
I could hide  
Inside your eyes  
Deep and misty ocean blue  
I was fine until I spent a while  
Let myself drift  
I couldn't see that I was  
Slowly losing independence  
Oh now  
I feel much more free

I can finally see how  
Time is everything  
Oh love alone is not enough to heal the pain
