

# When The World Stopped Moving

Lizzy McAlpine

It's so hard to watch you be happy  
It's so hard to know that I'm not  
'Cause when the world stopped moving  
Like it did last week  
I just wanted you to hold me

It's so hard to not be in your life  
'Cause you know I love your brother  
And your mom like they were mine  
And when the world stopped moving  
Like it did last week  
I just wanted you to hold me

And all your friends are mine  
They know that we're nothing alike, mmm  
So if they believe that we're meant to be  
I'd like to think they're right  
But when the world stopped moving  
You weren't by my side  
And that didn't feel right

It's so hard to remember last winter  
But like the porcupine and cactus  
They don't care 'cause they've both got pricklers  
And when the world stopped moving  
I felt just like them 'cause see

Love is more than words  
And I also hurt you  
We've both done the worst, but  
When the world stopped last week  
I just wanted you to hold me
