

## Another Day

Llona

Just the other day with my brother man  
Tell am say this burden fit to kill a man  
Jah na only you wey dey understand me  
Say na only music I no get plan B  
Everyday I wake up is another chance  
And I carry family for other hand  
Tryna be a blessing to my mother land  
Maybe one day they gon' understand this

I'm praying for more life  
Every time, boy, I'm up all night  
Patiently waiting for sunshine  
Passion and talent all of them combine  
I know it's gon' be all alright  
Under the sun and my blood don rise  
I'm on the road for a long long ride  
End of the day we gon' pour more wine

Another day and another problem  
Me I no be guy wey no get conscience  
Pride no dey let the man take nonsense  
So many things wey I no fit forget  
All of my trouble me I never solve them  
Fuck competition, I don't like to contest  
No be small pikin wey dey like to suck breast  
If I get money then my mind don rest  
If I get money then my mind don rest

You gotta pay me what you owe me  
They no fit to control me  
The struggle with a lonely single mother  
If I tell you all the story  
I'm steady on the coding  
The matter don dey choke me  
Wetin I go tell my little brothers if they ask me the story

I'm praying for more life  
Every time, boy, I'm up all night  
Patiently waiting for sunshine  
Passion and talent all of them combine  
I know it's gone be all alright  
Under the sun and my blood don rise  
I'm on the road for a long long ride  
End of the day we gon' pour more wine

Another day and another problem  
Me I no be guy wey no get conscience  
Pride no dey let the man take nonsense  
So many things wey I no fit forget  
All of my trouble me I never solve them  
Fuck competition, I don't like to contest  
No be small pikin wey dey like to suck breast  
If I get money then my mind don rest  
If I get money then my mind don rest
