

Cold War

Llona

Damie
Ah, na-na

No issue
It's getting dangerous but no issue
I tell you my story but you no fit to know
And even if you know
You know I broke into this
It's getting serious that I sold my peace
Fell so many times and I hurt my knees
No real friends when I was not all like this
Chase music when nothing dey for my jeans
This is unlike me

Oh my God, it's a cold world (World)
Family kill family and it's cold blood (Why, why)
Why can't you see that there's no love? (Only)
Only one Llona when I show up
I paralyse but I no fall (I paralyse)
So many things but I no talk
God on my side, so I no fo
Only one soldier when I go war

Breddah man, I been done dirty
This life e be discovery
They burn me out like cannabis
Hold me up to pedigrees
I heard them say they don't believe
Man, I heard them say they don't believe
Shoulda learned quicker
I'm my own believer
Shoot down, conversations with them fake losers
They just around for the ride
I don't know what's worse
Is it the way they make you think you can confide in them?
Put a couple dollars on the line for them
Later on the internet, you see them talking down on you, in front of
you

Oh my God it's a cold world (It's a cold world)
Family kill family and it's cold blood (And it's cold blood)
Why can't you see that there's no love? (Can't you see?)
Only one Llona when I show up (Only one, only one)
I paralyze but I no fall (Oh)
So many things but I no talk (Oh, oh, oh)
God on my side, so I no fo (On my side, on my side)
Only one soldier when I go war (Only one, only one)
