

Nobody

Llona

Nobody nobody
Follow my heart when nobody dey
Somebody somebody nobody fit to relate
Never look back am just running
Oh my God am all up in space
Oh child is not funny don't wanna see that smile on your face

All the mami water pray, pray make I drown
Their heart dey break anytime I dey smile
Thank jah for the pain it opened up my eyes
I am a fucking king but I never realize
Can't even close my eye without having all this dreams
I'm tired of this pain so am steady on this trips
Smoking loud in the morning only time I feel at peace
Really never feel at peace does it have to be like this?

Nobody nobody knows
Another man fast and another man slow
Never taking my shine so I let them man know
Am taking my time and I let the vibe flow

Nobody nobody
Follow my heart when nobody dey
Somebody somebody nobody fit to relate
Never look back am just running
Oh my God am all up in space
Oh child is not funny don't wanna see that smile on your face

Yeah yeah uh yeah uh yeah
Them no fit fall a man down
Yeah yeah uh yeah uh yeah
Them no fit fall a man down
