

Reverse

Lloyd Banks

They smilin' in your face
All the time wanting to take your place
Them backstabbers destined for mac splatters and satan shakes
Lost in the discipline that patience takes, they rather take yo
urs
Repetitive stories of loyal dons attacked by they dawgs
This comes for times for circulation
Right hand smack niggas counter clockwise reverse the hatin
Intuition mixed in with my montage grimey debating
I've been personal, won't be no drive bys, fly goons that chase
em
Big money money will flip shit upside down, top form just pacin
,
Your behaviour only bring crowds crying you're due vacation
Shit talking never gets old, and you wanna race us
In a town of keen memory works against negotiations
Facial features on a fresh tee you test me
I get over with more weed and jet ski make my respect be
Motherfuckin' priority high and duck you outta be
Get you clip for a quarter ki
Disrespect's an enormous fee

You decide to chill it gets real, hit you right where it hurts
Gotta be on point in the warfare can't put shit in reverse

Ever think about the place you gon end up in when you die
You coming back, or just peaceful eternal sentence to the sky
When you pay for all the crosses black smoke burning your eyes
Mindful of horrible memories enemies waving high
They want your people giving off weird energy major sign
Never appearances snuck right up on you figure the fame was fin
e
Being thirsty will have you leaking think chillings a waste of
time
You discuss shame in the mirror predictable face of grime
Figure you get a little slack cause your spirtual case declined
You fucked up, ready for chemicals wishing you can change your
mind
Niggas beefing giving away the location and you just followed e
m
They been scheming and you've been helping em wheres your sense
of survival been
Garage full of foreigners you'll never drive again
You've been mourned a couple of mornings but they ain't losing
no oxygen
Crying children and memorabilia for boxes, when your gone life
just goes on rest and peace and so on

You decide to chill it gets real, hit you where it hurts
Gotta be on point in the warfare can't put shit in reverse
